

Canada Energy Regulator - Reporting Form - Companies using trusts for set-aside mechanism

Last updated: 5 March 2025

This document was initially introduced as Appendix XV in the MH-001-2013 Reasons for Decision ([A60676](#)) and is updated over time, as required.

A – Company information	
Regulatory instrument holder (entity which holds the certificate or order)	
Filed by (company name) if different from regulatory instrument holder	
Pipeline system(s) name(s)	
List all associated order numbers or certificate numbers associated with the pipeline system(s)	
Provide the company’s current Annual Contribution Amount (ACA)	
Provide the REGDOCS document number¹ and link to the company’s current ACA calculation form	
Specify how the ACA is collected (from shippers, self-contributed, or both)	
B – Update on abandonment funds	
Provide the year open date of the financial reporting period	

¹ All REGDOCS document numbers should be in the format C_____, or if an older filing, it may be in a format like A12345. This is not the file number found at the top of correspondence. For example, if the company’s ACE was last approved by the Commission on 27 March 2024, the REGDOCS document number and link is [C29054](#), and this is not the file number at the top of the Commission’s letter (i.e., it is not 3430786).

Specify units used (thousands, millions, actual amount, etc.) in "Notes" column	Notes	Planned	Actual
Year open balance²	The Planned Year open balance should reflect the Planned Year close balance from the prior year.		
Earnings/losses within trust	Provide the earnings/losses before fees, taxes and other expenses.		
Rate of return in trust, before taxes, fees and other expenses (%)³	Provide calculations for actual rate of return.		
Other expenses (i.e., trustee and service fees, admin expenses, etc.)	List other expenses.		
Tax expense/recovery on earnings within trust			
Amount collected from shippers			
Abandonment surcharge paid to other pipelines			
Tax true-ups			
Contribution to trust⁴			
Approved disbursements for abandonment activities	Provide CER order number authorizing the disbursements.		
Year close balance⁵			
Provide the year close date of the financial reporting period			
Provide the percentage difference between the actual and planned year close balances⁶			
If the variance between the actual and planned is more than 10%, include an explanation for the difference and provide a plan to resolve the difference⁷			
Any other relevant information	Amounts collected from shippers differs from Contributions to Trust due to one month lag in collections vs. contributions		

² If the Planned Year open balance does not reflect the Planned Year close balance from the prior year, provide an explanation.

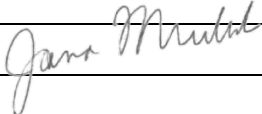

³ In the "Planned" column, include the pre-tax nominal rate of return consistent with the rate of return in Line 5 of the company's current ACA form/rate of return specified in the company's current statement of investment policies and procedures. In the "Actual" column, include the trust's actual annual rate of return, before taxes, fees, and expenses calculated as a percentage. In the "Notes" column, include the calculations for the actual rate of return.

⁴ This amount should be consistent with the "Contributions" line item in the trust's audited financial statements (in the statement of operations and changes in net assets).

⁵ The year close balance should be derived as a result of the inputs in this form and should be consistent with the "end of year net assets" from the trust's audited financial statements.

⁶ This amount should be calculated as: (actual year close balance/planned year close balance) -1 expressed as a percentage. If the variance is greater than 10 per cent include a detailed explanation for the difference.

⁷ Attach an additional document for explanation and plan to resolve the difference.
