

Transmission Pipeline Business Unit Customer Service Contacts

Pembina's transmission pipeline assets have developed through the strategic acquisition of key natural gas, ethane and condensate transportation infrastructure assets, positioned in some of the most prolific gas producing regions in Western Canada and the United States. Pembina's transmission pipelines provide customers with access to premium markets primarily on a fee-for-service basis under long-term contracts through long-haul pipelines.

Assets at A Glance:

- Alberta Ethane Gathering System (AEGS)
- Alliance Pipeline
- Cochin Pipeline
- Empress Pipeline
- Vantage Pipeline
