

Marketing Business Unit (MBU) Customer Service Contacts

Pembina undertakes value-added commodity marketing activities including buying and selling natural gas, NGLs and crude oil. Through a proven track record of product purchasing, selling, logistics and commercial negotiations, the Marketing business adds incremental value to the commodities. Where customers participate in one of MBU's aggregated pools, they benefit from a portfolio of markets. Marketing activities also include identifying commercial opportunities to further develop incremental markets or egress to new markets.

Product Marketed include:

- Natural Gas
- Natural Gas Liquids (Butane, Ethane, Propane)
- Crude Oil & Condensate

For Commercial Service inquiries, please contact:
